

Kemlan Tempo Stack

Kemlan Tempo Stack is a new concept in slow combustion heating.

The raised firebox provides an uninterrupted view of the fire burning and allows usable space under the firebox. The slim nature allows the fireplace to be placed in almost any position taking up very little space. Placing a log into the fire has never been easier with no bending down required. A perfect feature and heater added simply to any home.

Robust, 6mm welded firebox. **Simple**, one easy slide control. **Safety tested** to Australian Standards AS/NZS2921 and AS/NZ4013. **Efficient**, high heat output. **Long lasting**, with a 10 year warranty.
