

TILEfacts

These Tubelined and Majolica Decorative Tiles have been hand produced in the time-honoured way. The very nature of hand production ensures that no two pieces will ever be exactly the same and that, inevitably, there will be some shade variation from tile to tile. The soft Majolica glaze may also show a degree of crazing. The thickness of glaze necessary to reproduce the very shiny Victorian colours may occasionally cause this to occur. It does not affect the serviceability and actually achieves a truer degree of the reproduction effect.

It is the responsibility of the purchaser to ensure that the material supplied is suitable before fixing. No claims of any nature will be accepted after tiles are fixed.
